

Excess 12

OPTION GUIDE

Dear Dealer,

This document contains all the essential information you will need to understand and talk about options available aboard the EXCESS 12.

01. SAIL AWAY Pack
02. Sailing experience
03. Outside experience
04. Inside experience
05. Technical equipment
06. Accessories

The document refers to equipment from Price List B2022.

This support is a professional tool for your use only. Thank you to not forward it directly to clients but use it to improve your personal knowledge and to perform during client meetings.

This tool will be regularly upgraded according to model year changes and supplier evolutions. Please check regularly for updates. Last upgrade is indicated at the bottom of this page.

Remember, the Sales Guide is about product overview and key client benefits. For option details, please refer to this Options Guide. For technical information, please refer to your Technical Guide.

Enjoy your reading !

The Excess team

SAIL AWAY

Electric Pack

RAYMARINE Electronics 2021

Starboard double helm seat

Aft porthole in aft cabins with curtains

Lateral porthole in galley

Opening hatches on forward roof windows

Lifeline openings

SAIL AWAY is an entry level finishing including options and packs.

ELECTRIC PACK

1 - Two additional service batteries 140A

Service battery bank

STANDARD	SAIL AWAY	TOTAL
2 x 140A [AGM]	+ 2 x 140A [AGM]	4 x 140A [AGM]

[AGM std version available from 12#025]

Location onboard underneath the bed [aft port cabin]

2 - Additional 40A charger

40A battery charger | CRISTEC

Charges service batteries and engine

STANDARD	SAIL AWAY	TOTAL
40A	+ 40A	2 x 40A

Location onboard on engine port compartment

3 - Battery controller

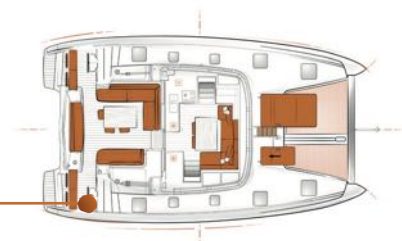

Power supply, charge level, lifespan.

A dedicated extra sensor allow to monitor the batteries lifespan and alert for replacing.

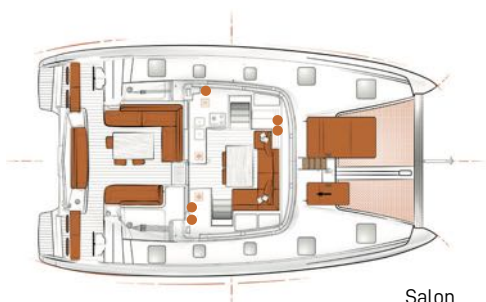

ELECTRIC PACK

4 - Shore Power 32A

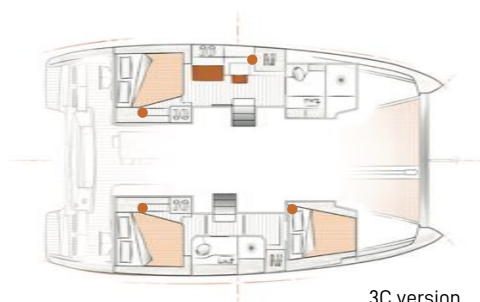

5 - [230V outlet + double USB sockets] in cabins & 230V outlet / USB sockets in salon

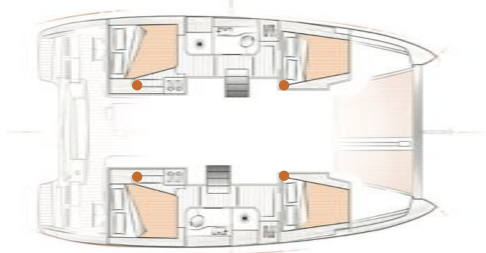

LOCATION ON BOARD

VHF RAYMARINE single handset

2nd Wireless handset for VHF RAYMARINE

VHF RAYMARINE single handset

THE CHOICE OF BOLD SAILORS SEEKING SENSATIONS!

The PULSE LINE is undoubtedly an exciting pack from design point of view to sailing experience! You can sail faster, enjoy sporty sail trimming and a definitively eye-catching design.

The PULSE LINE Pack includes the following options:

- 1 - PULSE LINE **Rigging & Sails plan**
- 2 - **Square top mainsail and self-tacking jib** in pro-radial [Color: grey]
- 3 - **Code 0 rig and pole & furler** [Additional manual winch on port included]
- 4 - **3rd reef**
- 5 - **Barber hauler**
- 6 - **Textile** lifelines
- 7 - PULSE LINE **steering wheels** [Color: Orange]
- 8 - PULSE LINE **hull decoration**

1 - Rigging & Sails plan

With PULSE LINE, the mast configuration [Std: 15.1 m | 49'6" ; PULSE LINE: 15.9 m | 52'1"] offers a great sails plan with a **larger**:

- Mainsail
- Self-tacking jib
- Code 0 **SAIL** [The option is NOT included in this pack]

PULSE LINE increases SA/DSPL 7%, moving the ratio to 4,43, almost 4% above standard. On the water there will be regularly a positive difference above 4%.

■ PULSE LINE - Code 0
■ PULSE LINE Main Sail and Jib

	STANDARD	PULSE LINE	%
Mast length	15.1 m 49'6"	15.9 m 52'1"	+ 5%
Square top mainsail	50 m ² 538 sq ft	53.5 m ² 576 sq ft	+ 7%
Self tacking jib	32 m ² 344 sq ft	35 m ² 377 sq ft	+ 9%
Upwind sail area	82 m ² 883 sq ft	88.5 m ² 936 sq ft	+ 7%
Code 0 [if option selected]	67 m ² 721 sq ft	75 m ² 807 sq ft	+ 12%
Sail Area / Displacement	4.27	4.43	+ 4%

2 - Square top mainsail and self-tacking jib in pro-radial

The boat comes in standard with a square top mainsail using top quality white Dacron[®], with horizontal cut.

With the PULSE LINE we offer a higher tech Dacron[®] with a different horizontal and vertical split of the fiber called Pro Radial, made by German company Dimension Polyant.

Together with a starcut assembly, it allows those larger sails to rise the stiffness of the sail, without the aging risks of laminar cloths.

Sails come in Grey color [in lieu of white Dacron[®] in standard].

Tri-radial cut
[non-contractual color]

PRORADIAL - Tri-radial cut. **[PULSE LINE]**

PRORADIAL fabric from Dimension POLYANT: warp-oriented woven polyester fiber ensuring a perfect adaptation of cut.

Tri-radial cut in accordance with the forces present in the sails.

Outstanding durability in shape and very good resistance against chafing

[Grey]

Horizontal cut
[non-contractual color]

Dacron[®] - Horizontal cut. [STANDARD]

Classic horizontal cut.

Dacron[®] sailcloth: weft-oriented woven polyester fiber, for a horizontal cut.

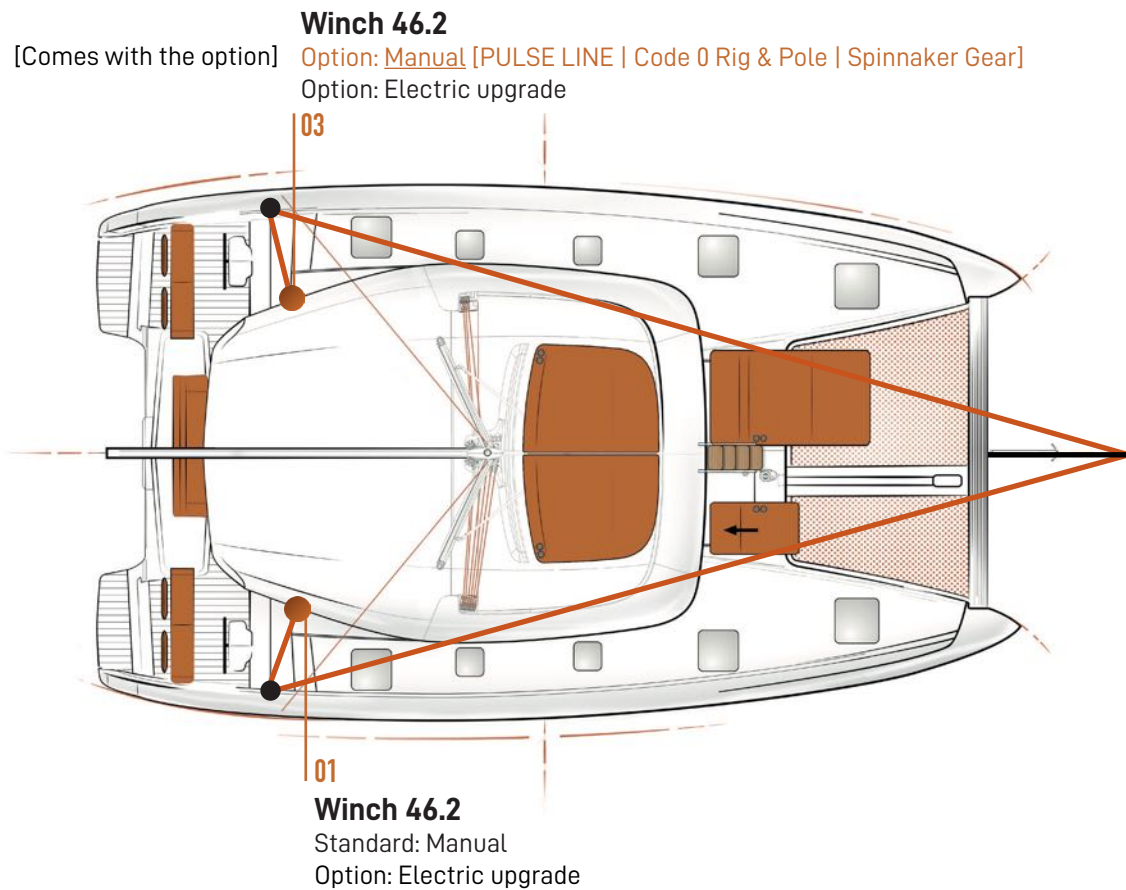

Good resistance & shape holding.

Excellent technical properties against chafing

[White]

5 - Barber Hauler

A flying barber hauler is a 4:1 hoist [same principle as the hoist of a dinghy catamaran] designed to be used with the mainsail sheet when the boats sails downwind, when the leeward mainsheet hoist let's go the boom to a point where the boom starts to move as much up as out: the leech of the main opens up and will very soon end up against the leeward rig shroud

To avoid this loss of power and this risk of damaging the sail cloth the flying barber hauler comes in: its top part is to connect to the top loop of the leeward mainsheet below the boom, the bottom is to connect on a padeye on the leeward side of the sheer line

Once in place, one trims the leech of the mainsail with both this device and the leeward mainsheet hoist. It can also be used as a boom preventer when sailing long downwind tacks.

PULSE LINE

02

SAILING EXPERIENCE

RIGGING AND SAILS

5 - Barber Hauler

[Photos on EXCESS 11]

You can cleat it to the aft mooring cleats, on starboard if you are on a port tack, or on port if on a starboard tack. You will balance the tension on the flying barber-hauler and the leeward mainsheet to get a proper shape.

Do not forget to remove it before jibing or tacking!

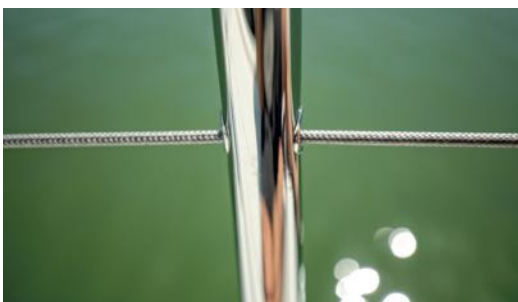

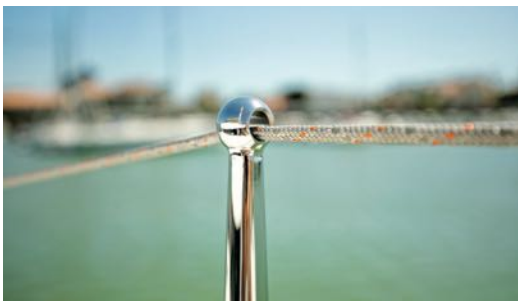

6 - Textile lifelines

The textile lifelines replace the stainless steel standard lifelines.

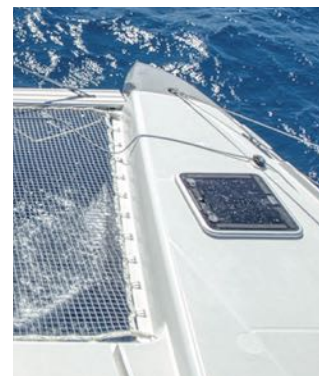

Created and designed especially by LANCELIN, the textile lifelines brings a unique character and look to the outside of your boat.

Made from fiber for more efficiency, the customized **lifelines are fluorescent at night for safer night cruising.**

OPTION

[reference no longer available]

[Carbonautica - Steering wheel](#)

STANDARD

Material: Stainless steel & leather
Color: Grey

8 - PULSE LINE hull decoration

We've created a distinction between the standard line and the sportier PULSE LINE, while maintaining the same spirit. The inspiration came from the logo, a sporty and elegant wake, fluid and dynamic, taken up in an immoderate way in its PULSE LINE version. Isabelle's interest in typography made the process almost natural. The combined lines at the back of the hulls highlight the turn of the bilges in a marked and legible manner.

HULL DECORATION BY ISABELLE KELLER

"I have sailed a lot, racing, with a crew and I have shared the life of a professional sailor for a long time. I have experienced ocean racing and great adventures like the Transats and the Vendée Globe, from the inside. And then, on a simpler level, I have always wanted to live by the sea, overlooking the Atlantic Ocean."
Isabelle Keller, designer of the hull decoration.

AIS 700 RAYMARINE TRANSCEIVER WITH ANTENNA COUPLING

Raymarine®

[AIS700]

AIS700 Class B Transceiver with integrated antenna splitter [Model: E70476]

Key features:

- Full transmit and receive AIS
- Latest SO-TDMA networking
- Built-in antenna splitter
- NMEA2000, NMEA0183, PC and SeaTalking compatible
- Software or hardware switchable Silent Mode

RAYMARINE RADAR 4G QUANTUM

02 SAILING EXPERIENCE

ELECTRONICS

[QUANTUM 2 CHIRP RADAR 24 MN]

Raymarine Quantum 2 Radar with Doppler collision avoidance technology [Model: E70498]
The option includes stainless steel protection.

Key features:

- Doppler moving target display allows for superior situational awareness at-a-glance
- Fully automatic MARPA target tracking, along with manual MARPA mode
- Adjustable TrueTrails target history shows the motion history of moving contacts
- CHIRP Pulse Compression detects contacts as close as 18-feet for zero-visibility navigation
- 24-mile range for early detection of traffic, navigation aids, landfall and weather
- Immediate awareness – Quantum starts up and is ready to go in seconds
- Superior interference rejection eliminates noise from other radars
- Low power consumption for extended battery life under sail

RAYMARINE REALVISION SOUNDER

Brand: RAYMARINE
Model: **RV-200** Bronze All-In-One Through Hull Transducer [A80465]

Easily identifies structures and locate fish with the life-like clarity of RealVision 3D™ sonar

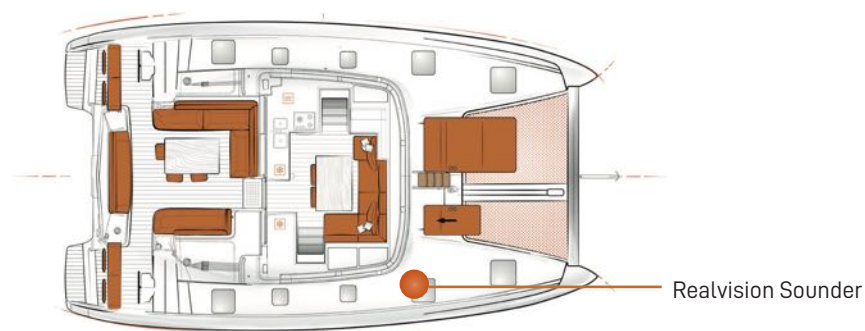

Maximum depth:
3D: 91.5 m | 300'2"
DownVision: 183 m | 600'4"

PULSE LINE HULL DECORATION

03 OUTSIDE EXPERIENCE

We've created a distinction between the standard line and the sportier PULSE LINE, while maintaining the same spirit. The inspiration came from the logo, a sporty and elegant wake, fluid and dynamic, taken up in an immoderate way in its PULSE LINE version. Isabelle's interest in typography made the process almost natural. The combined lines at the back of the hulls highlight the turn of the bilges in a marked and legible manner.

HULL DECORATION BY ISABELLE KELLER

"I have sailed a lot, racing, with a crew and I have shared the life of a professional sailor for a long time. I have experienced ocean racing and great adventures like the Transats and the Vendée Globe, from the inside. And then, on a simpler level, I have always wanted to live by the sea, overlooking the Atlantic Ocean."
Isabelle Keller, designer of the hull decoration.

ADDITIONAL STORAGE IN THE COCKPIT

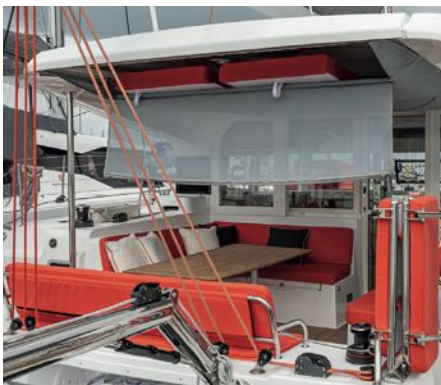

The option includes **2 additional storage units** with front and top access in the aft cockpit.

[not compatible with cockpit fridge 40L]

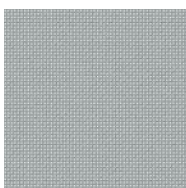

TEXTILE STORAGE UNDER ROOF

XXL textile **storage under standard roof.**

Double access to store upholstery, mattress, enclosures, paddle board, etc.

[not compatible with sliding roof option]

Color: Grey

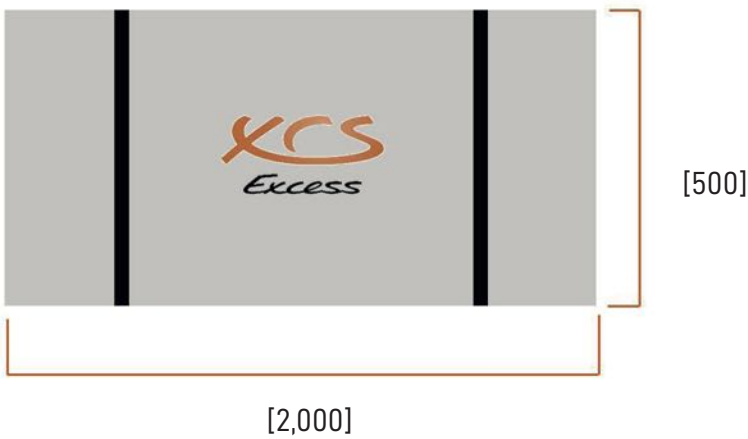

Fabrics : Ferrari Batyline ISO 7407 - 5003 ACIER

TEXTILE STORAGE ON FORWARD NET

[Photo onboard EXCESS 11]

Canvas storage bag on forward trampoline for any storage.

Color: Grey [Light Charcoal]
Fabrics : Weather Max 80

ENCLOSURES WITH WINDOWS FOR AFT COCKPIT

Enclosures made in fabric with PVC transparent windows.

The option includes 1 large aft enclosure with 2 doors on each side.

Lateral dedicated storage in the roof with fabric cover.

Color: Cadet Grey
Sunbrella® SUNTT 5530 152

BIMINIS ON HELM STATIONS WITH WINDOWS

This option includes:

- **2 biminis** with enclosures and windshield [portside and starboard]
- Stainless steel structure with canvas top roof
- Additional enclosures with windows on side and aft and windshield
- Dedicated storage bag for each bimini

PANDA GENSET 10KVA

04

TECHNICAL EQUIPMENT

ELECTRICAL CIRCUIT

[Forward port technical compartment]

Comes in original shield which minimizes noise and vibrations.

Brand: FISCHER PANDA
Model: Panda 10 000i PMS

Dedicated 12V 50A battery.
Works with both fuel tanks.
Tug in aft port cabin to select port tank or starboard tank.

Control panel in forward port compartment next to the genset and in technical compartment in port companionway.

230V 50HZ: 10kVA
120V 60HZ: 10kVA

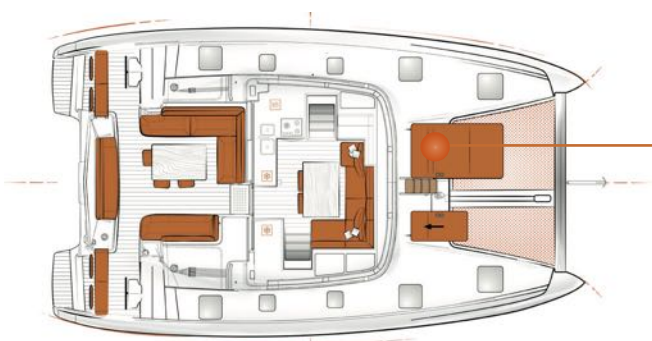

[Forward port technical compartment]

[Technical compartment port companion way]

LOCATION ON BOARD

Genset
[Not compatible with additional fresh water tank]

INVERTER 2KVA

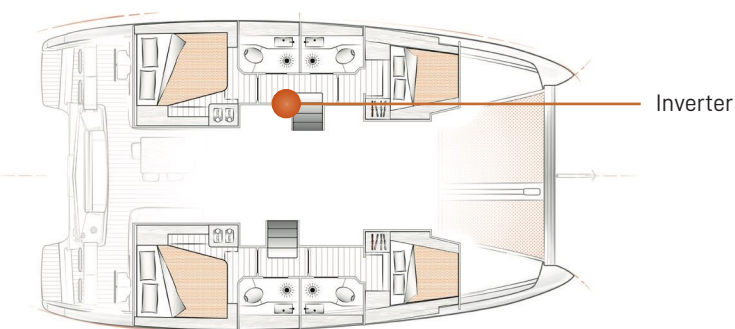

Brand: MASTERVOLT
Model: AC Master 12|2000 [Ref: 28512000]
Power: 2,000 VA

Available in 230V and 120V.

Automatic selection when shore power [SAIL AWAY Pack compulsory] is detected from the system
Power switches automatically from the inverter to the shore power.

LOCATION ON BOARD

SOLAR PANELS ON DAVITS

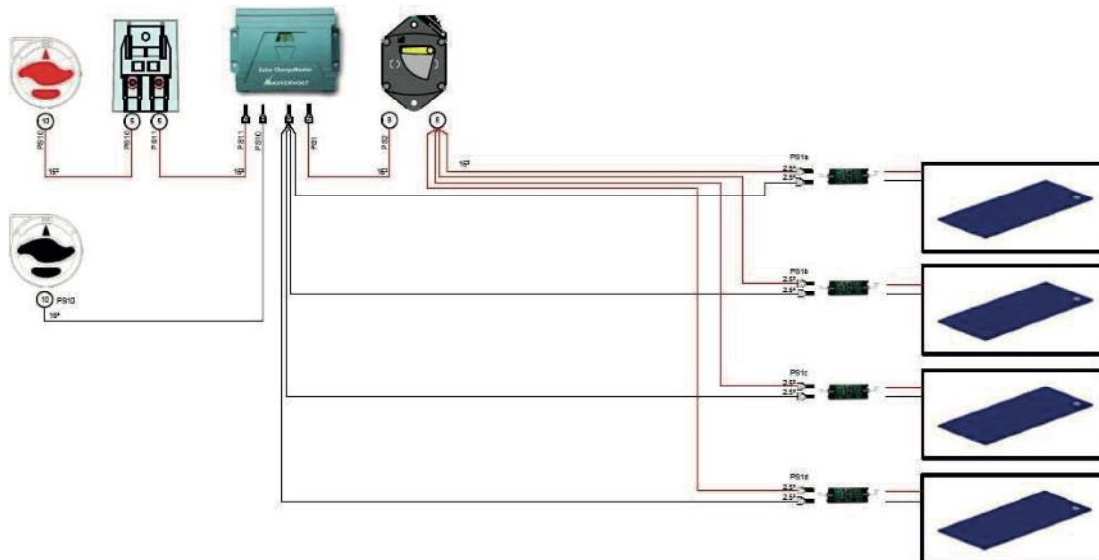

04 TECHNICAL EQUIPMENT

ELECTRICAL CIRCUIT

The option includes 4 panels of 120W each **[Total: 460W]**

Brand: Solara
 Quantity: 4
 Rated output: 120W
 Panel dimension: [L x B] : 1,250 x 543 | 4'1" x 1'9"
 Weight [per unit]: 4.4 kg
 Cell dimension: 125 x 125 mm | 0'4" x 0'4"
 Cell technology: mono crystalline with backcontact

120V / 60 HZ NORTH AMERICAN SPECIFICATIONS

This option includes all the changes on standard electrical equipments from 230V/50Hz to 120V/60Hz [Technical drawing on following page]

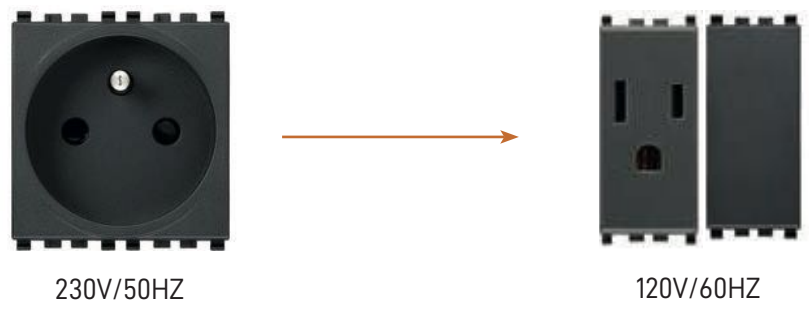

Main changes detailed underneath:

1 | Shore Power | 120V - 60Hz
32A shore power [SAIL AWAY Pack] replaced by 50A shore power

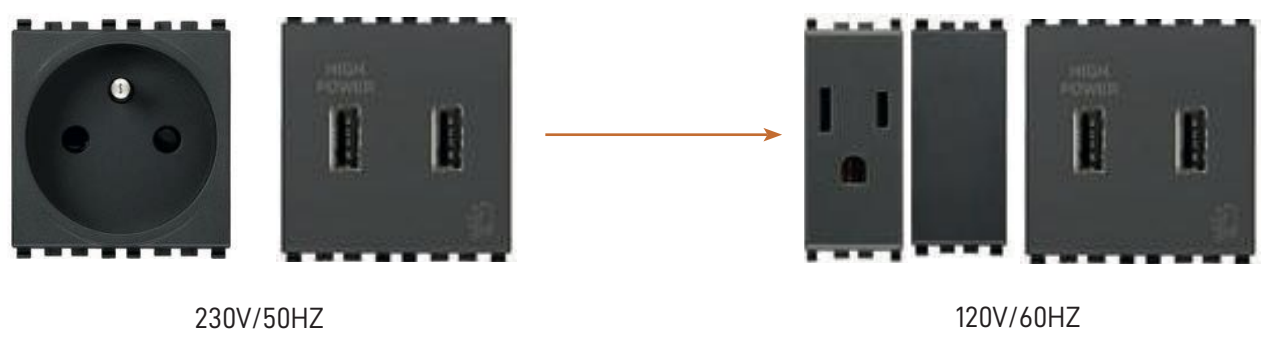

2 | Sockets:
