A one-of-a-kind beauty, enrapturing,
that steals your breath away, leaving you
speechless. An extraordinary idea as the only
possible pathway, to get to where you want,
to explore, to go beyond.
The freedom of embracing the unknown, that
you know you'll love as a part of your very own
story. A thought that provokes your mind and
then inspires you to aim for the impossible,
making mistakes, yet being brave.
A magic je ne sais quoi that enchants and
intrigues you, moving you to feel more and to
sense uniqueness.

The choice to risk it all, the one that makes you
go for it, to impress yourself and all those who
are worth it.

Welcome to Azimut.

AZIMUT.
DARE TO AMAZE.

THE DESIGN & LIFESTYLE ON BOARD

THE PURSUIT OF ADRENALINE

Un fenomeno della performance e del mare dal DNA immersivo, il Verve 47 privilegia le emozioni più autentiche e il comfort superiore. Con una potenza capace di viaggiare sull'acqua sino a 50 nodi, questo sensazionale yacht con motore fuoribordo unisce velocità e agilità, diventando una scelta ottimale per chi ama gli spostamenti fluidi e frequenti, e desidera sentirsi un tutt'uno con il mare. Una dichiarazione di design poderosa, questa imbarcazione ricca di carattere rappresenta l'innovazione pura: benvenuto weekender.

Spingiti oltre con Verve 47.

Welcome aboard, ladies and gentlemen.

Let us begin the tour.

DESIGNED TO THRILL

[Dark fashion plates almost merge with the windows, reborn to enhance lightness.]

The sporty, dynamic external lines of the Verve 47 conceal surprisingly spacious volumes while the ample open-air areas are designed with comfort and versatility in mind. Sit back and prepare to be enthralled and seduced by its timeless modernity as you experience the invigorating, empowering sense of knowing you are free to have whatever your heart desires, wherever and whenever you choose to go.

THE ULTIMATE IN AL FRESCO RELAXATION

DESTINED TO TURN HEADS

The asymmetrical split-level layout of the bow is designed to maximise space for outdoor living. Up top is an ample cushioned sunbathing area while just below is a versatile al fresco lounge-cum-dining zone with a six-person table surrounded by an inviting C-shaped divan.

VERSATILITY AND CONVIVIALITY

[When you want additional lounging space or are getting into a party mood, simply press a button and the table disappears from sight, leaving you with an uncluttered deck area.

RELAXATION IS THE NAME OF THE GAME

The concept behind the design of the exterior areas is to enable the owner and guests to fully enjoy the extraordinary privilege of life on the water.

Versatility is to the fore, with a high-low table that can be completely removed from sight, a lateral open section and well-equipped cockpit cabinet creating an enticing, glamorous aft area that is simply made for long, convivial afternoons and evenings relaxing with friends and family.

IMMERSE YOURSELF A BRANDNEW CONCEPT OF SEA LIVING

Designed to bring the sea as close as possible, the cockpit features a side panel that opens out in a matter of seconds to become a surprising platform over the water.

[The cockpit is designed with versatility and space optimisation at its heart, with innovative features such as a foldout portion of the gunwale that extends the entire stern area.]

The spacious, convivial outdoor area features a multi-purpose unit fitted with a wet bar, 40" pop-up TV, fridge, icemaker, barbeque, hob and sink.

Could you ask for more?

POWER, DESIGN AND COMFORT

The American approach of wholeheartedly embracing the sporty nature of life at sea combines with renowned Italian style and design flair, and of course the unmistakable Azimut personality and attention to detail. The bow reinterprets the typical profile of offshore racing boats, but the innovative integration of the windows into the hull and gunwale creates an extraordinary sense of connection with the sea.

AT ONE WITH THE SEA

The modern, stylish helm station is based on a Plug&Play layout concept featuring clean, stark lines and a high-tech approach that uses LED lighting to stunning effect. The glass dashboard contains a trio of 16-inch Raymarine Axiom display screens that provide comprehensive navigational data together with a digital system that places control of all the various onboard functions at your fingertips.

Now, let us discover the guest accommodations.

Shall we?

VERVE 47

AZIMUT YACHTS

MAKE YOURSELF AT HOME

Sophisticated yet cosy and welcoming, the interiors are testimony to the meticulous attention to detail that has gone into creating the perfect combination of comfort, style and versatility. The dinette, located on the beam in the centre of the boat, can be transformed into a spacious relaxation zone with a large L-shape divan and a high-low table that can be converted into a double bed.

[Natural light enters from above and through the side windows of the second cabin to create a pleasant, inviting space. Located towards the stern, it is fitted with twin beds and a separate shower box.]

02

HER MAIN TECHNICAL FEATURES

The beauty of the Verve 47 is not solely a matter of exterior and interior design elements that combine to perfectly play out Azimut's essence.

Her beauty is also about discovering the technological advancements and special components that contribute to making her truly unique and highly innovative.

HIGH PERFORMANCE DOUBLE STEPPED HULL

The high-performance patented Stepped 'V' Ventilated Tunnel (SVVT) was developed by Michael Peters and incorporates a classic deep 'V' hull with two transverse steps and a central tunnel aft. It is this latter feature that sets it apart from other current stepped deep 'V's, with its shallow aft central tunnel increasing the longitudinal stability of the boat in high speed turns and adverse situations.

The use of the SVVT hull on the Verve 47 represents the merging of cutting-edge hull forms with advanced outboard engine power and avant-garde concept design and styling. The combination of technologies culminates in a boat that boasts unmatched performance, manoeuvrability and speed in its class and represents the largest and grandest SVVT pleasure boat available on the market.

CARBON-TECH GENERATION

Azimut's pioneering use of carbon fiber lamination goes beyond pure performance. The Carbon Tech Generation offers expanded volumes on board, while maintaining excellent dynamic stability and perfect handling. Preserving the yacht's low center of gravity, the carbon fiber was focused on the upper parts of the yacht, lightening the laminated components by up to 30% and reducing the natural roll momentum up to 15%.

- ② DECK

INTEGRATED CONTROL AND MONITORING SYSTEM

The custom-installed Raymarine electronics have been integrated to control and monitor every onboard system: from engines and alarms, to bilge and water discharge pumps, tank levels and engine room ventilation, right through to the sound system and the air conditioning units. The system can be accessed onboard from both the interior and exterior helm stations and, with the mobile app, remotely from a tablet or smartphone.

UNI ISO 8666
The performance described applies to a vessel with standard configuration (standard equipment installed) and a clean hull, propellers, and rudder. It is also noted that the performance described was recorded under favourable sea and wind conditions (Beaufort scale index 1, Douglas scale index 1); different and worse sea conditions could significantly impact performance.

CE MARK
Given the continual evolution of technology, Azimut | Benetti S.p.A reserves the right to modify the technical specifications on its vessels at any time and without prior notice.

THE VERVE SERIES

THE AZIMUT WEEKENDER

Designed for adrenaline enthusiasts with an appetite for deluxe living, the Azimut Verve Series embodies a new boating sensation, defying the traditional take on American style outboard-powered yachts and Italian cabin cruisers to launch a one-of-a-kind segment: the weekender. Uninhibited and freedom-loving, its fierce aptitude for performance unexpectedly combines with luxurious onboard ambiances, setting aside all compromise for a thrilling yet elevated nautical experience.

Allow yourself to have it all.

ABOUT AZIMUT

A FAMILY-MADE COMPANY CULTURE

An immense and personal passion for the sea. A clear and forward-facing attitude. A strong and relentless work ethic. Since 1969, Paolo Vitelli, the creative visionary founder and businessman behind Azimut, has been set on challenging the industry's status quo with a daring desire: bring to life an unexpected nautical experience, through yachts built to combine alluring aesthetics with construction expertise and impeccable technology.

An audacious mindset that has, over time, surprised and captivated the yachting sector, transforming Azimut into a bold and recognizable benchmark, and laying the foundation for the birth of the largest megayacht builder in the world, the Azimut | Benetti Group.

The international and management-based standing of the company today, is deeply nourished by the solid and memorable family heritage that has distinguished it from the beginning. A historically pioneering vision that enables it to continue thriving day after day, through ingenious inventions and long-term goals that look to the future with Paolo's daughter, Giovanna Vitelli.

A SUSTAINABLE VISION TODAY, FOR TOMORROW

An avant-garde vision and a strong emotional appeal have shaped the history of Azimut as a leader in the field of nautical innovation as well as its commitment to the creation of a sustainable-oriented and attentive company culture today.

An ambitious and personal touch that has allowed Azimut to grow and evolve on both levels, embracing the challenge of a future nurtured by an eco-conscious approach to boat construction and by an authentic focus and responsibility on human well-being.

OUR ECO-YACHTING PHILOSOPHY

The Azimut I Benetti Group has made tangible investments to guide the Technical as well as the R&D departments toward the construction of yachts with a diminished environmental impact. Its main areas of intervention have focused on significantly lowering fuel consumption and CO2 emissions through the development of highly efficient hull designs, innovative propulsion systems and an extensive use of carbon fiber to decrease yacht weight.

A SAFE AND HEALTHY WORK ENVIRONMENT

The forerunning shipyard of Avigliana was the first of the company's Italian shipyards to obtain the ISO 45001 certification in 2011, attesting its rigorous abidance to all occupational health and safety requirements. Recognized as the most technologically-advanced shipyard in Europe, it has also led the nautical sector revolution in terms of being among the earliest adopters of the vacuum infusion process to drive resin into a laminate, avoiding styrene emissions and therefore guaranteeing its precious workers a healthier setting.

As of 2013, all the other Italian production sites have adapted to meet the necessary requirements to obtain the ISO 45001 certification.
