Space - Luxury - Innovation

The **Aventura 14 power** designed by LASTA Design Studio, defies all known codes. Indeed, it offers an interior worthy of a real yacht, the standard version with its Master cabin and its 2 guest cabins offers volumes never seen on this size.

The 2 guest cabins also benefit from exceptional comfort, but innovation is the possibility of having full master versions 2 or 3 cabins, 4 identical cabins or even 5 or 6 cabins, of course all with their bathroom private

The saloon is also huge with a U-shaped sofa, a kitchen and plenty of storage space, an American-style fridge with ice maker, optional wine cellar and dishwasher can be installed, the interior helm station is comfortable and complete.

The exterior fittings offer at deck level no less than two squares for meals or relaxation, the interior passage without steps between the rear and front squares is also unique allowing easy and friendly circulation for a breakfast facing the sunrise or tanning on the 2 large sun loungers...

The Fly bridge with its 27m² offers a helm station for two, comfortable seats, a dining area, a huge sunbathing area and a full kitchen with fridge, plancha and sink (optional)

Everyone will find their place on Adventure 14

Equipped as standard with 2 X 320hp (2 X 440hp optional) performance is at the rendezvous and the record autonomy with 3,000 liters of diesel (+ 1,000l optional) will allow a range of action without competition.
