SKIPPER BABY 150

Inflatable life jacket for children, ISO 12402-3 certified, class 150, effective buoyancy 150 N, quick-release side clasp closure system in acetal resin with integrated adjustment.

Designed for leisure activities in the open sea and/or under adverse weather conditions, it guarantees maximum safety for any type of navigation.

Made to be easily worn and quickly activated even by younger navigators (weighing between 15 to 40 kg). The central quick-release closure is designed for ease-of-use.

CASING FEATURES

- Collar in breathable mesh
- Mesh back support
- Velcro closure
- Quick-release clasp with integrated adjustment
- Double crotch strap
- Rescue assistance loop
- Lifting handle

VERSIONS

| CODE | PRODUCT NAME | ACTIVATION | ACTIVATORS |
|-------|--------------------|------------|------------|
| 09225 | SPINNAKER BABY 150 | AUTOMATIC | UML MK5 |

SKIPPER BABY 150

Floatation chamber with single compartment in PA 420 PU COATED material with electronically-controlled high-frequency welds. Provides optimal positioning and perfect stability in the water. The thrust rotates an unconscious person and angles them so as to keep their airway free of water. What's more, once the chamber is inflated, it is possible to swim unimpeded to reach safety or to quickly climb into a lifeboat.

ACTIVATION SYSTEMS:

- Automatic: upon falling into the water, the system automatically activates within 5 seconds of submersion, with the inflation of the floatation chamber. Automatic activation is possible with the salt activator UML MK5, through the dissolution of a water-soluble tablet.
- Oral: this type of inflation is achieved via the special mouth tube, with a non-return valve and protective cap. To inflate the chamber, simply blow into the tube.

SKIPPER BABY 150

SPARE PARTS

Whistle

25180

A mandatory accessory that permits an emergency sound signal to be issued. ISO 12402-8 certified

Rearming

UML: rearming kit (26224), water-soluble tablet (25005), green MK5 pin (25003/MK5)
Canister 24 g (26024)

ACCESSORIES

Sprayhood

09145/SK

Reduces the risk of secondary drowning via inhalation of nebulised water. Improves detection of the castaway.

LED light

03015

Automatically activates upon falling into the water. Renders the device visible for up to a mile. SOLAS M.E.D.-certified and USCG approved
