

Excess 15

OPTION GUIDE

Dear Dealer,

This document contains all the essential information you will need to understand and talk about options available aboard the EXCESS 15.

01. SAIL AWAY Pack
02. Sailing experience
03. Outside experience
04. Inside experience
05. Technical equipment
06. Accessories

The document refers to equipment from Price List B2022.

This support is a professional tool for your use only. Thank you to not forward it directly to clients but use it to improve your personal knowledge and to perform during client meetings.

This tool will be regularly upgraded according to model year changes and supplier evolutions. Please check regularly for updates. Last upgrade is indicated at the bottom of this page.

Remember, the Sales Guide is about product overview and key client benefits. For option details, please refer to this Options Guide. For technical information, please refer to your Technical Guide.

Enjoy your reading !

SAIL AWAY

Electric Pack

RAYMARINE Electronics 2021

Starboard double helm seat

Aft porthole in aft cabins with curtains

Lateral portholes in galley

Opening hatch in forward roof window

Starboard electric winch 50.2

Deck courtesy lights [Aft cockpit and transoms]

Lifeline openings

SAIL AWAY is an entry level finishing including options and packs.

ELECTRIC PACK

1 - 3x additional service batteries 140A

Service battery bank

STANDARD	SAIL AWAY	TOTAL
3 x 140A [AGM]	+ 3 x 140A [AGM]	6 x 140A [AGM]

Location on starboard engine compartment.

2 - Additional 60A charger

40A & 60A battery chargers | CRISTEC
Charge service batteries and engine

STANDARD	SAIL AWAY	TOTAL
40A	+ 60A	1 x 40A 1 x 60A

Location on starboard engine compartment.

3 - Battery controller

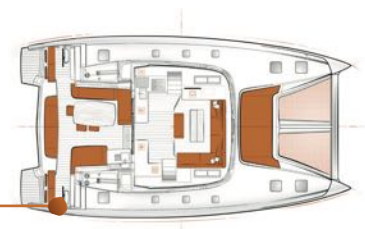

Power supply, charge level, lifespan.

A dedicated extra sensor allow to monitor the batteries lifespan and alert for replacing.

Location on starboard companionway

4 - Shore Power 32A

[Steering wheel no longer available]

5 - [230V outlet + double USB sockets] in cabins & 230V outlet / USB sockets in salon

Power sockets 230V

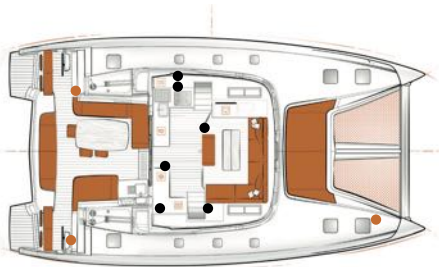

- Salon and galley: x6
- Per cabin: x2
- Forward cockpit locker [stbd]: x1
- Per engine compartment: x1

USB sockets [added to 230V power socket]

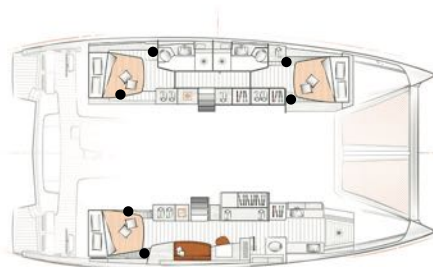

- Salon and galley: x2
- Per forward and middle cabin: x2
- Per aft cabin: x4

[Standard: 1x USB salon socket at the companionway. Only 230V]

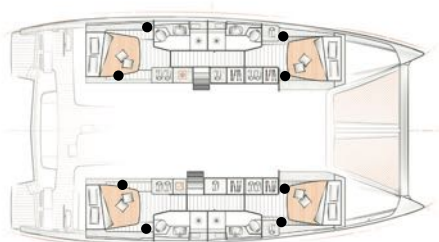

LOCATION ON BOARD

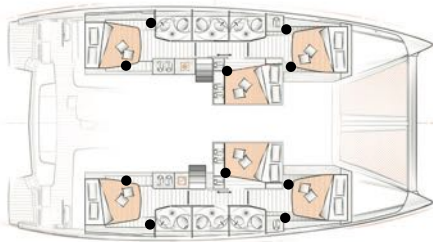

Salon

4C2T version

4C4T version

6 - Interior light monitoring

Screen size upgrade: 3.5" Touch screen [replaces the standard 2.4"]

Monitoring upgrade:

- Main battery banks: voltage & power INPUT | OUTPUT
- Start batteries [port & starboard] : voltage & power INPUT | OUTPUT
- Bow thruster batteries [option] : voltage & power INPUT | OUTPUT
- Chargers [40A & 60A] : voltage INPUT & total power consumption
- Charger [Generator option]:
- Grey water tank levels [Option]

Standard monitoring includes:

- Fuel tank levels
- Fresh water tank levels
- Black water tank levels

Lighting:

- ON|OFF for each cabin [Reading light not included]
- ON|OFF for salon [Chart table reading light not included]
- ON|OFF for cockpit

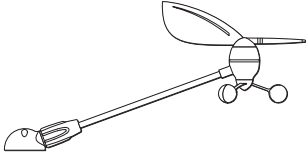

Standard monitoring includes:

- Lighting: Global ON|OFF [Reading lights and technical compartment lights not included]

A total ON|OFF control including head ceiling lights, reading lights, technical compartment lights.

Control switch at main DC panel at the chart table.

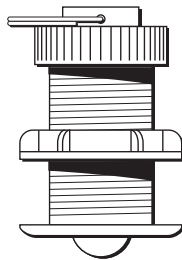

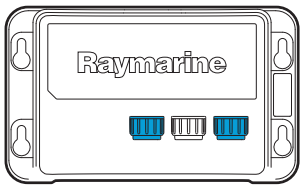

1 - Wind transducer

Raymarine Model: E22078

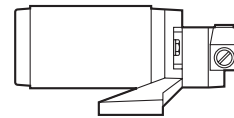

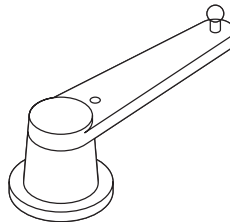

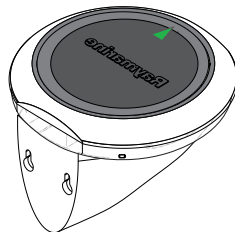

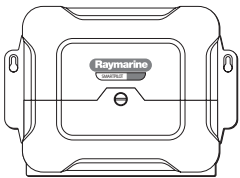

Raymarine

2 - Speed | Depth | Temp. Smart Transdu-

Raymarine Model : A2211

3 - Autopilot

EV-19-axis compass sensor with built-in rate gyro.

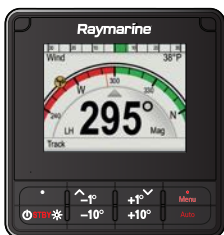

ACU-400 actuator control unit and Rudder Reference

Raymarine Model: E70096 + E70100

L&S Hydraulic linear drive unit

4 - Equipment at starboard helm station [starboard GRP console included]

P70s

P70s Autopilot Control Head
Raymarine Model: E70331

I70s

I70s Colour instrument
Raymarine Model : E70330
i70s High-resolution colour display showing digital analogue and graphical formats with LightHouse III user interface.

5 - Portative compass

- 1 portative compass
- 2 supports
- 1 black clutch bags

NAVICOM Model: Compas 70UN Universal

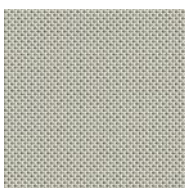

STARBOARD DOUBLE HELM SEAT

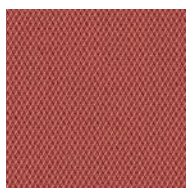

[Color upholstery no longer available]

Double foldable seat on starboard helm station
Option includes a cover.

Color: Grey
FERRARI® Batyline Lounge Quartz
7720FR-50932

Color: Orange
SUNBRELLA® Mezzo Tigerlily
MEZZ 10222 140

AFT PORTHOLE IN AFT CABINS WITH CURTAINS

[Starboard]

[Port]

x1 **Opening porthole** per aft cabin, with curtains.

LEWMAR - Mitre T4 TWIST

Dimensions : 650 L x 190 W mm | 2'1" x 0'7"

LATERAL PORTHOLES IN GALLEY

x2 Opening portholes located on galley to port and starboard.

LEWMAR - Mitre T1

Dimensions: 370 x 200 mm | 1'2" x 0'7"

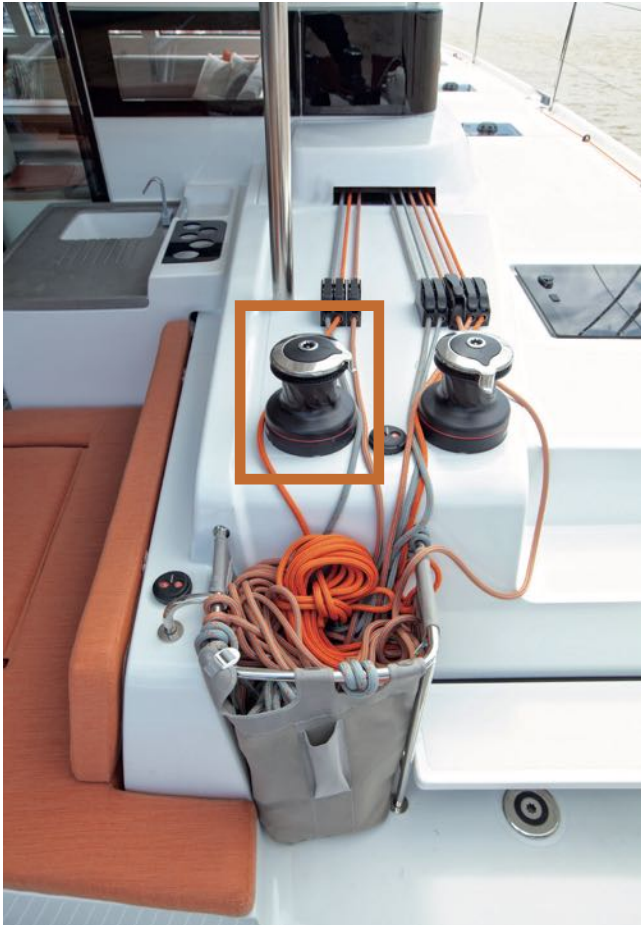

OPENING HATCH IN FORWARD ROOF WINDOW

x1 **Opening porthole** on central forward roof windows, in the salon.

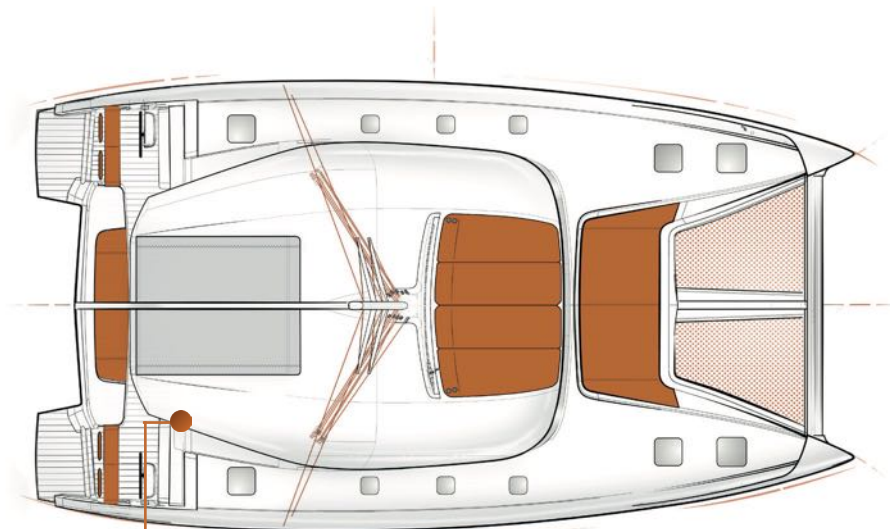

LEWMAR - Mitre
Dimensions: 660 L x 340 W mm | 2'1" x 1'1"

STARBOARD ELECTRIC WINCH 50.2

Electric upgrade from manual winch [per standard] on **starboard** helm station.

Brand: HARKEN
Model: 50.2 STEA

- 01 • Main sail sheet
- Reef 1
- Reef 3
- Mainsheet traveler [std]

Lazy bag

ELECTRONICS

RAYMARINE Electronic Upgrade Pack

Upgrade for AXIOM 12" display

AIS 700 RAYMARINE transceiver with antenna coupling

RAYMARINE radar 4G Quantum Q24D Doppler

RAYMARINE realvision sounder

RAYMARINE pilote smart controller

VHF RAYMARINE single handset

2nd Wireless handset for VHF RAYMARINE

THE CHOICE OF BOLD SAILORS SEEKING SENSATIONS!

The PULSE LINE is undoubtedly an exciting pack from design point of view to sailing experience! You can sail faster, enjoy sporty sail trimming and a definitively eye-catching design.

The PULSE LINE pack includes the following options:

- 1- PULSE LINE **Rigging & Sails plan**
- 2- **Square top mainsail and self-tacking jib** in Pro Radial [Color: grey]
- 3- **Code 0 rig and pole & furler** [manual winch on port included]
- 4- **Barber hauler**
- 5- **Textile** lifelines
- 6- PULSE LINE **steering wheels** [Composite - Color: Orange]
- 7- PULSE LINE **hull decoration**

1 - Rigging & Sails plan

With PULSE LINE, the mast configuration [Std: 23,05 m | 75'7" ; Pulse: 25,5 m | 83'7"] offers a great sails plan with a **larger**:

- Mainsail
- Self-tacking jib
- Code 0 **SAIL** [The option is NOT included in this pack]

PULSE LINE increases SA/DSPL 7%, moving the ration to 4,92, 3% above standard. On the water there will be regularly a positive difference around 4%

PULSE LINE - Code 0
 PULSE LINE Main Sail and Jib

	STANDARD	PULSE LINE	%
Mast length	23.05 m 75'7"	25.5 m 83'7"	+ 11 %
Square top mainsail	99 m ² 1,065 sq ft	106 m ² 1,141 sq ft	+ 7 %
Self tacking jib	55 m ² 592 sq ft	59 m ² 635 sq ft	+ 7 %
Upwind sail area	154 m ² 1,657 sq ft	165 m ² 1,775 sq ft	+ 7 %
Code 0 [if option selected]	117 m ² 1,259 sq ft	127 m ² 1,367 sq ft	+ 8,5 %
Sail Area / Displacement	4.75	4.92	+ 3.5 %

2 - Square top mainsail and self-tacking jib in Pro Radial

The boat comes in standard with a square top mainsail using top quality white Dacron[®], with horizontal cut.

With the PULSE LINE we offer a higher tech Dacron[®] with a different horizontal and vertical split of the fiber called Pro Radial, made by the German company Dimension Polyant.

Together with a starcut assembly, it allows those larger sails to rise the stiffness of the sail, without the aging risks of laminar cloths.

Sails come in Grey color [in lieu of white Dacron[®] in standard].

Tri-radial cut
[non-contractual color]

Pro Radial - Tri-radial cut. **[PULSE LINE]**

Pro Radial fabric from Dimension POLYANT: warp-oriented woven polyester fiber ensuring a perfect adaptation of cut.

Tri-radial cut in accordance with the forces present in the sails.

Outstanding durability in shape and very good resistance against chafing

[Grey]

Horizontal cut
[non-contractual color]

Dacron[®] - Horizontal cut. **[STANDARD]**

Classic horizontal cut.

Dacron[®] sailcloth: weft-oriented woven polyester fiber, for a horizontal cut.

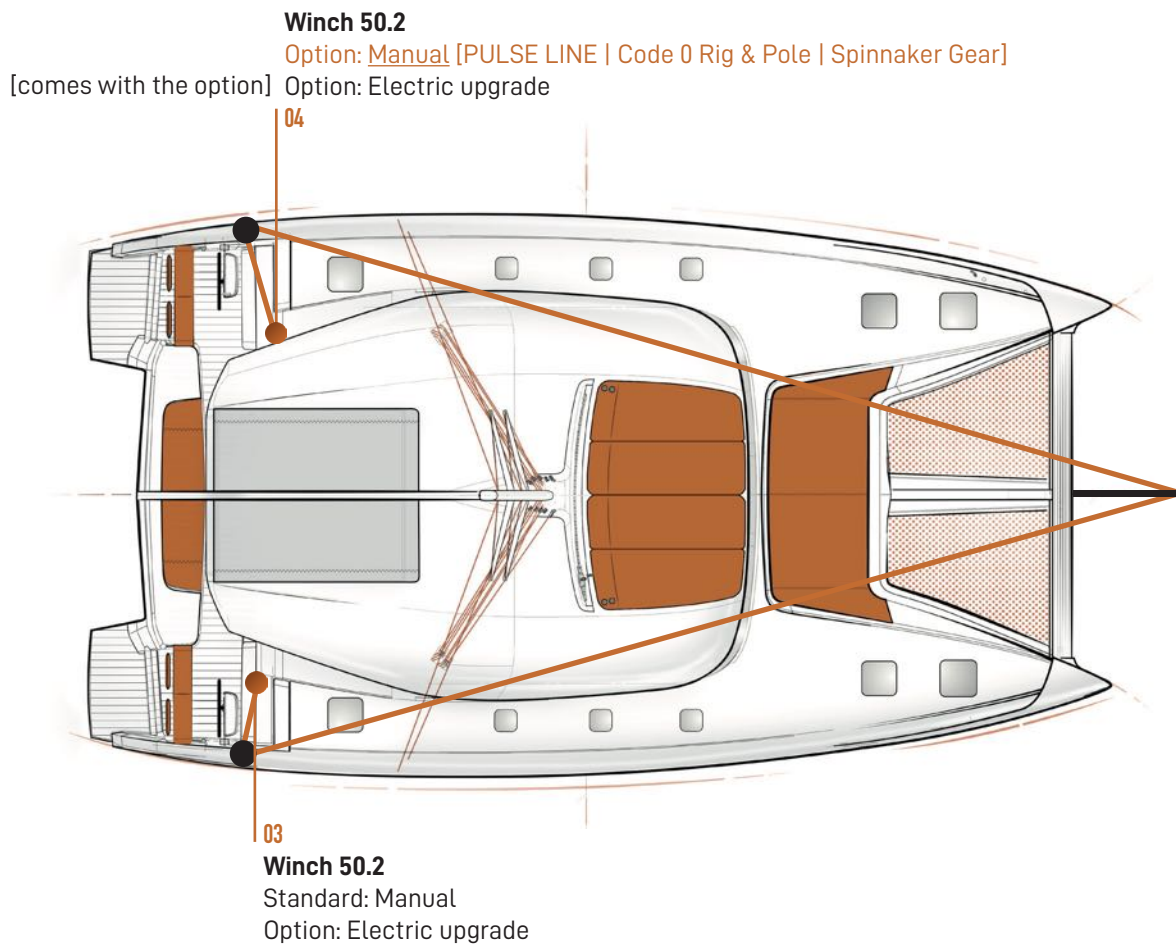

Good resistance & shape holding.

Excellent technical properties against chafing

[White]

3 - Code 0 Rig and Pole & Furler

- 03 • Reef 2
- Topping lift
- Main sail halyard
- Jib sheet
- Jib halyard
- Jib furling line

2,000 mm]

4 - Barber Hauler

A flying barber hauler is a 4:1 hoist [same principle as the hoist of a dinghy catamaran] designed to be used with the mainsail sheet when the boats sails downwind, when the leeward mainsheet hoist let's go the boom to a point where the boom starts to move as much up as out: the leech of the main opens up and will very soon end up against the leeward rig shroud

To avoid this loss of power and this risk of damaging the sail cloth the flying barber hauler comes in: its top part is to connect to the top loop of the leeward mainsheet below the boom, the bottom is to connect on a padeye on the leeward side of the sheer line

Once in place, one trims the leech of the mainsail with both this device and the leeward mainsheet hoist. It can also be used as a boom preventer when sailing long downwind tacks.

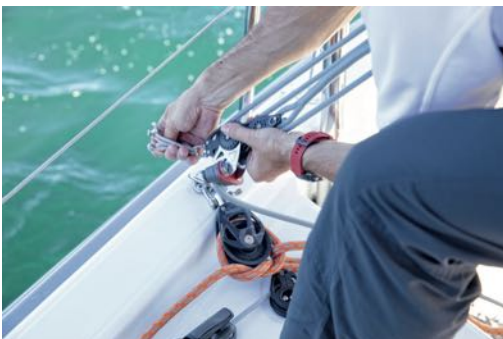

PULSE LINE

02

SAILING EXPERIENCE

RIGGING AND SAILS

4 - Barber Hauler

[Photos on EXCESS 11]

You can cleat it to the aft mooring cleats, on starboard if you are on a port tack, or on port if on a starboard tack. You will balance the tension on the flying barber-hauler and the leeward mainsheet to get a proper shape.

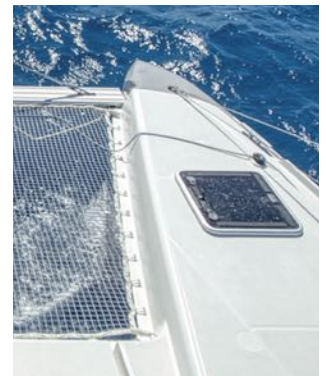

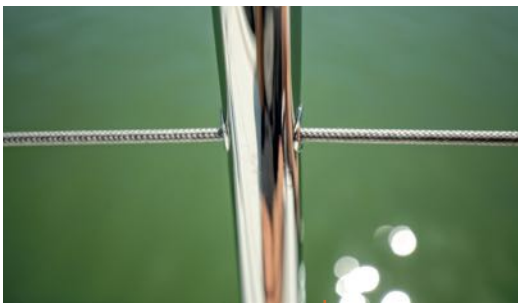

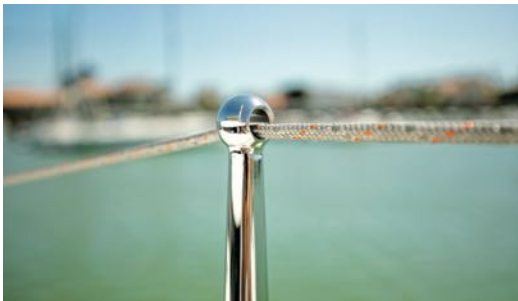

Do not forget to remove it before jibing or tacking!

5 - Textile lifelines

The textile lifelines replace the stainless steel standard lifelines.

Made from fiber for more efficiency, the customized Lancelin lifelines are **fluorescent at night for safer night cruising.**

OPTION

1

Brand: Lancelin
Material: Fiber
Color: Grey & orange

2

The pad-eye is part of the option.
By selecting the textile lifelines
you get also a pad-eye.

6 - PULSE LINE steering wheels

OPTION

This option replaces the standard s/s steering wheels
Upgrade for both helm stations.

Brand; CARBONAUTICA
Material: Composite
Color: Orange

[Carbonautica - Steering wheel](#)

STANDARD

[Photo onboard EXCESS 12]

Material: Stainless steel & leather
Color: Grey

7 - PULSE LINE hull decoration

We've created a distinction between the standard line and the sportier PULSE LINE, while maintaining the same spirit. The inspiration came from the logo, a sporty and elegant wake, fluid and dynamic, taken up in an immoderate way in its PULSE LINE version. Isabelle's interest in typography made the process almost natural. The combined lines at the back of the hulls highlight the turn of the bilges in a marked and legible manner.

HULL DECORATION BY ISABELLE KELLER

"I have sailed a lot, racing, with a crew and I have shared the life of a professional sailor for a long time. I have experienced ocean racing and great adventures like the Transats and the Vendée Globe, from the inside. And then, on a simpler level, I have always wanted to live by the sea, overlooking the Atlantic Ocean."
Isabelle Keller, designer of the hull decoration.

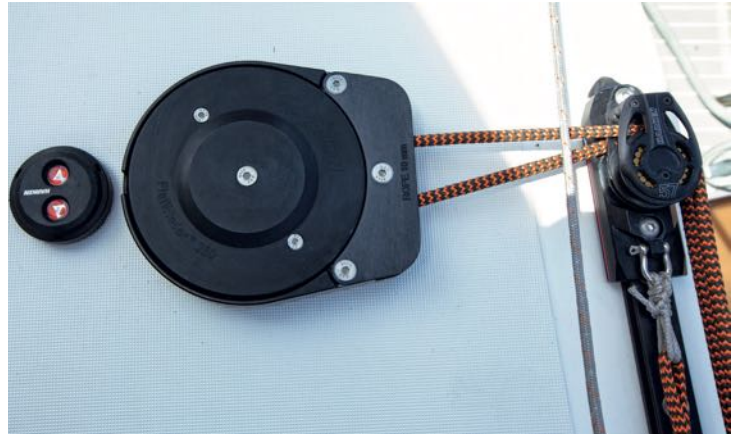

EXTRA FOR FLATWINDER ON STARBOARD AFT BEAM

02 SAILING EXPERIENCE

RIGGING AND SAILS

Electric flat winder on aft starboard.

Quantity: 1
 Brand: HARKEN®
 Model: FlatWinder

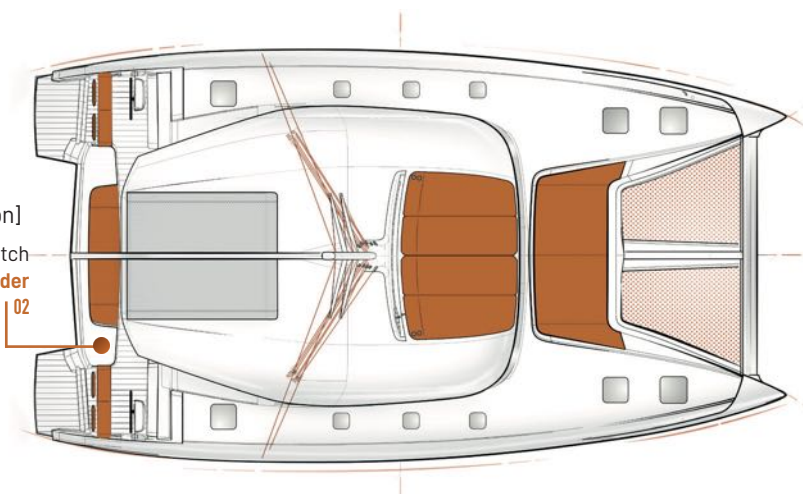

This self-contained electrically powered system is easy to use and offers sailors huge benefits in **mainsail control**, giving you the means to quickly depower the rig, and delay reefing when the wind picks up.

It operates in both directions allowing the car to move anywhere on the track while also keeping the traveler line off the cockpit floor.

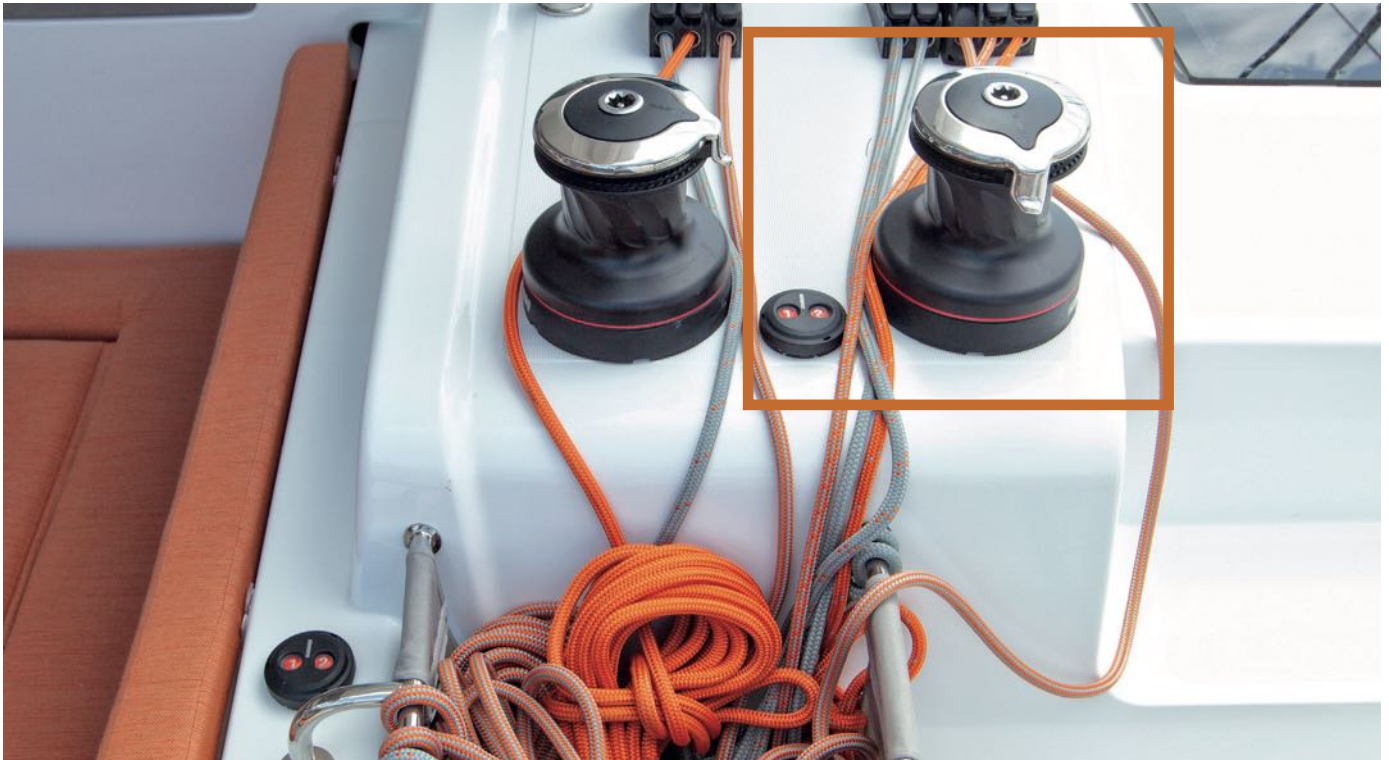

Two Digital System Switches, one button to port, the other to starboard, are installed for activation from both sides of the boat.

[comes with the option]
 Standard: Double clutch
 Option: **Electric FlatWinder**

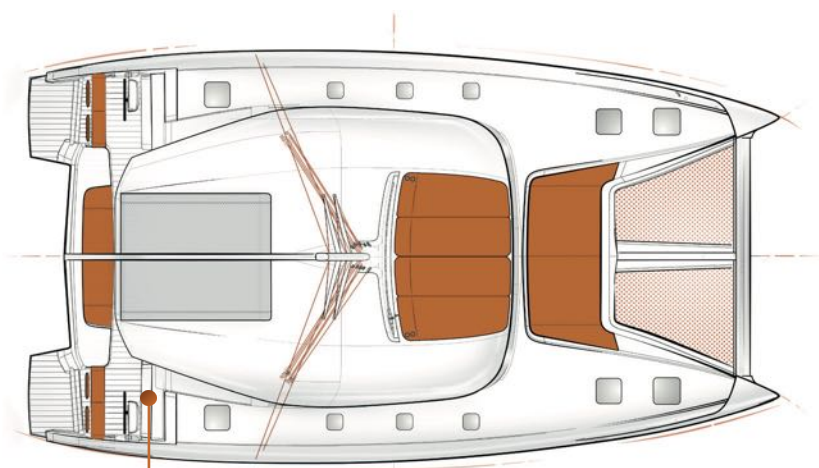

02 • Mainsheet traveler
 [option replacing standard]

AIS 700 RAYMARINE TRANSCEIVER WITH ANTENNA COUPLING

[AIS700]

AIS700 Class B Transceiver with integrated antenna splitter [Model: E70476]

Key features:

- Full transmit and receive AIS
- Latest SO-TDMA networking
- Built-in antenna splitter
- NMEA2000, NMEA0183, PC and SeaTalking compatible
- Software or hardware switchable Silent Mode

RAYMARINE RADAR 4G QUANTUM Q24D DOPPLER

[QUANTUM 2 CHIRP RADAR 24 MN]

Raymarine Quantum 2 Radar 18" with Doppler collision avoidance technology [Model: E70498]
The option includes stainless steel protection.

Key features:

- Doppler moving target display allows for superior situational awareness at-a-glance
- Fully automatic MARPA target tracking, along with manual MARPA mode
- Adjustable TrueTrails target history shows the motion history of moving contacts
- CHIRP Pulse Compression detects contacts as close as 18-feet for zero-visibility navigation
- 24-mile range for early detection of traffic, navigation aids, landfall and weather
- Immediate awareness – Quantum starts up and is ready to go in seconds
- Superior interference rejection eliminates noise from other radars
- Simplified installation with Wi-Fi or thin wire network connectivity
- Easy upgrade – Quantum 2 fits the same bolt pattern as other Raymarine scanners
- Low power consumption for extended battery life under sail

RAYMARINE REALVISION SOUNDER

Brand: RAYMARINE
Model: **RV-200** Bronze All-In-One Through Hull Transducer [A80465]

Easily identifies structures and locate fish with the life-like clarity of RealVision 3D™ sonar

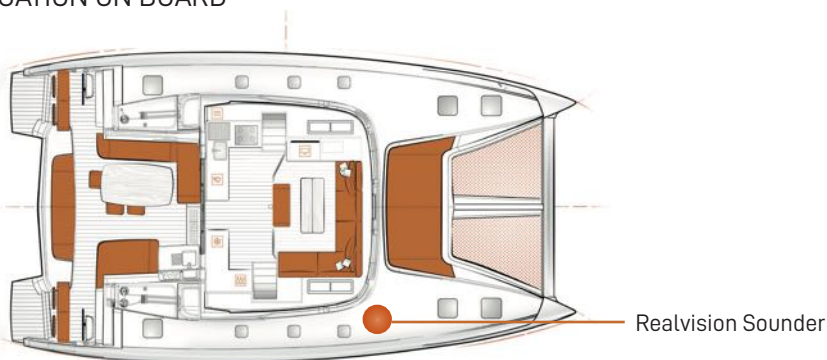

Maximum depth:
3D: 91,5 m | 300'2"
DownVision: 183 m | 600'4"
Port & Starboard: 91,5 m | 300'2"
Conical: 274 m | 898'11"

Beam width [L|H]:
3D: 180° | Down: 60° | Conical: 25°

PULSE LINE HULL DECORATION

03 OUTSIDE EXPERIENCE

We've created a distinction between the standard line and the sportier PULSE LINE, while maintaining the same spirit. The inspiration came from the logo, a sporty and elegant wake, fluid and dynamic, taken up in an immoderate way in its PULSE LINE version. Isabelle's interest in typography made the process almost natural. The combined lines at the back of the hulls highlight the turn of the bilges in a marked and legible manner.

HULL DECORATION BY ISABELLE KELLER

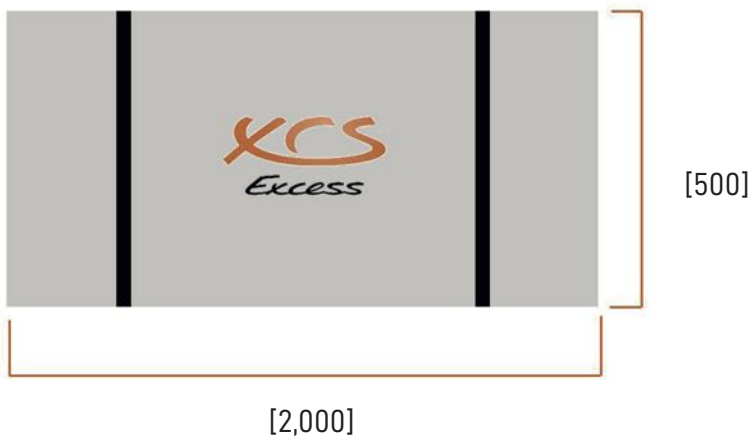

"I have sailed a lot, racing, with a crew and I have shared the life of a professional sailor for a long time. I have experienced ocean racing and great adventures like the Transats and the Vendée Globe, from the inside. And then, on a simpler level, I have always wanted to live by the sea, overlooking the Atlantic Ocean."
Isabelle Keller, designer of the hull decoration.

TEXTILE STORAGE ON FORWARD NET

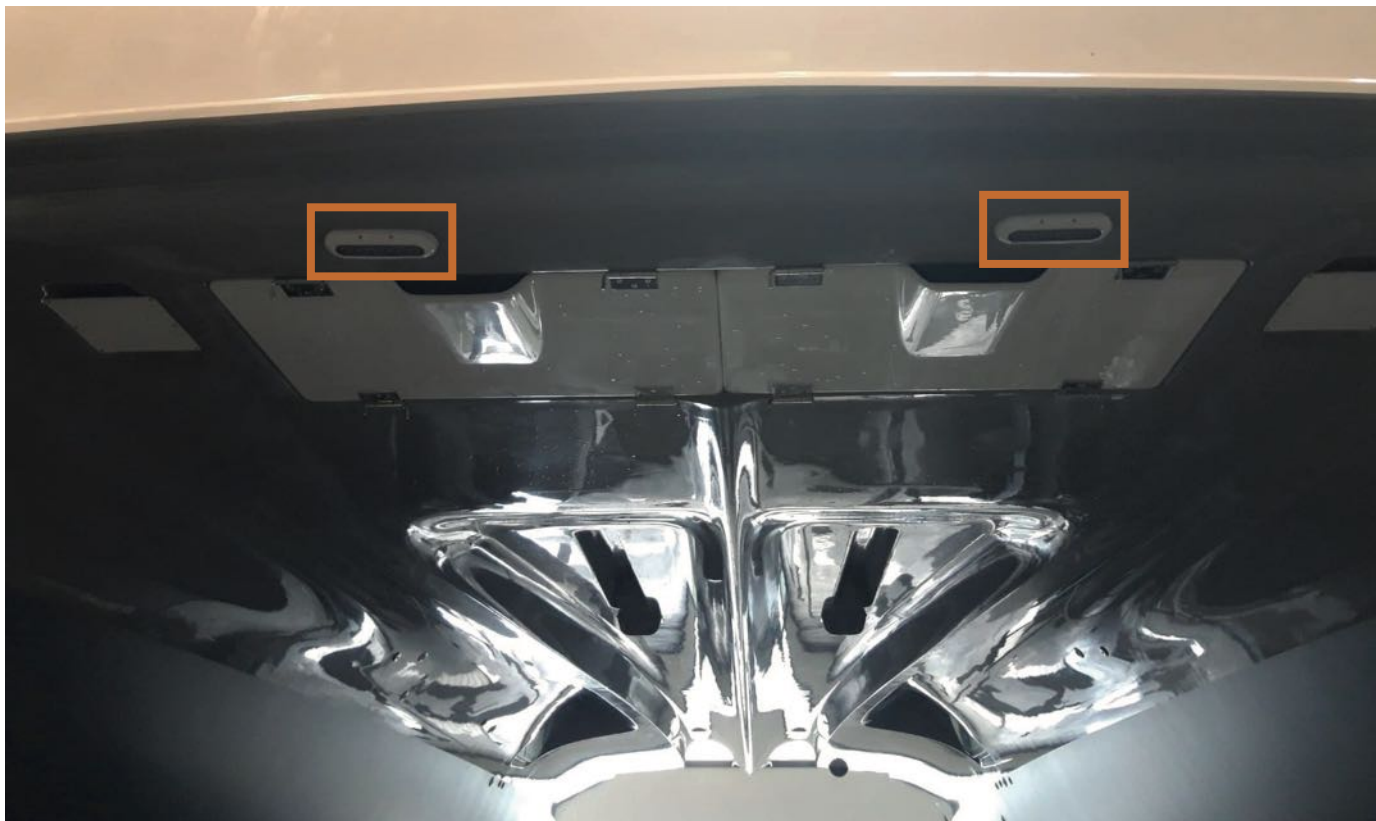

[Photo onboard EXCESS 11]

Canvas storage bag on forward trampoline for any storage.

Color: Grey [Light Charcoal]
Fabrics : Weather Max 80

SPOTLIGHTS IN AFT BEAM

ADDITIONAL FRESH WATER TANKS 2 X 175 L

The option includes x2 extra fresh water tank **on port & starboard** [2 x 175 L | 2 x 46 US Gal]

Total capacity [standard + option]: 830 L | 220 US Gal

LOCATION ON BOARD

Standard: fresh water tanks
2 x 240 L [2 x 63 US Gal]

Option: Additional fresh water tanks
2 x 175 L [2 x 46 US Gal]

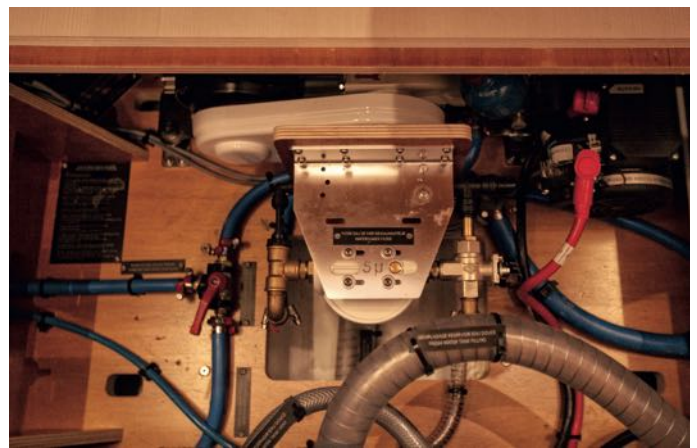

WATERMAKER 100L/H

04 TECHNICAL EQUIPMENT

WATER CIRCUIT

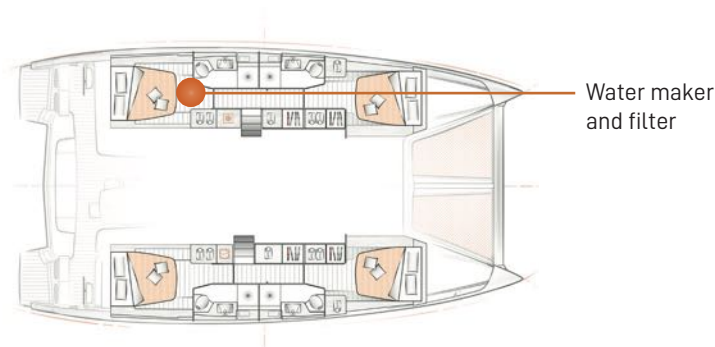

Located underneath the floor on aft port cabin.
Access from a removable hatch on the floor.

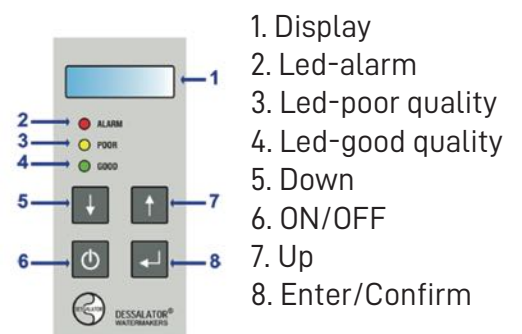

Brand: DESSALATOR
Model: Dessal 100 L / H - 12/230V [26 US Gal]

Three way valve allows you to choose the tank port or starboard

LOCATION ON BOARD

Watermaker control panel

This panel is connected via an RJ cable, located in aft port cabin

GREY WATER TANKS 2 X 120 L

[Available only on 3 & 4-cabin versions]

The option includes 2 x 120 L | 2 x 32 US gal GREY water tanks, located underneath the floor on starboard and port companionways. Tanks accessible through a removable hatch on the floor.

[Total capacity: 240 L | 63 US gal]

[Not compatible with additional black water tanks options]

Equipment connected to the tanks :

- Standard : Heads [sink & shower], galley sink and cockpit sink
- Option : Dishwasher, washer-dryer, toilet, shower and sink in stbd bow compartment

All wastewaters are differently connected and collected into the tanks:

- Cockpit/galley sinks/dishwasher : by gravity
- Heads : automatic and independent electric pump

Central units underneath the shower are all connected to the tanks via an electric pump.

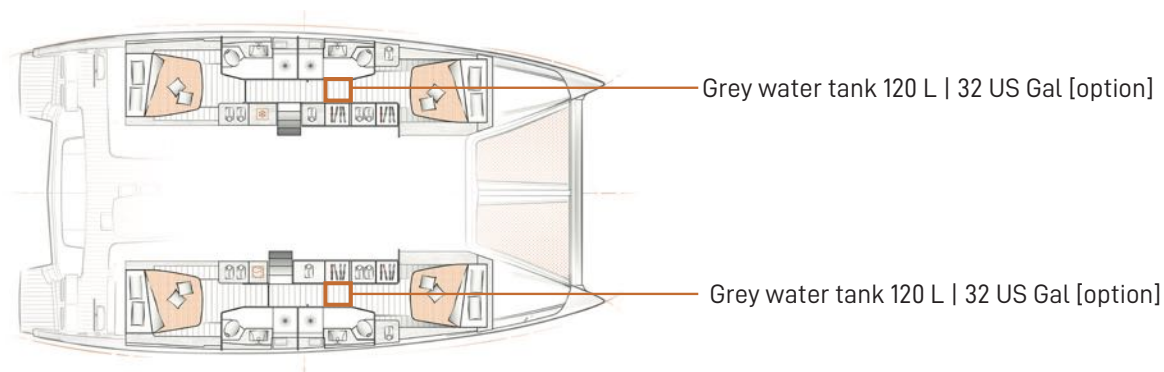

- Washer-dryer : automatic and independent electrical pump
- Forepeak in starboard bow compartment : automatic and independent electric pump

Tanks are exhausted by the deck vacuum or direct to the sea via an electric pump.

Pump control panel is located in the starboard companionway.

Depending on the navigation area and thanks to three 3 way-valves, all wastewaters can also be evacuated directly to sea without being collected into the tanks.

LOCATION ON BOARD

ADDITIONAL BLACK WATER TANKS 3 OR 4 X 120 L

[Available only on 3 & 4-cabin versions]

The option includes 1 or 2 additional 120L | 2 x 32 US gal black water tanks, located underneath the floor on starboard and port companionways.

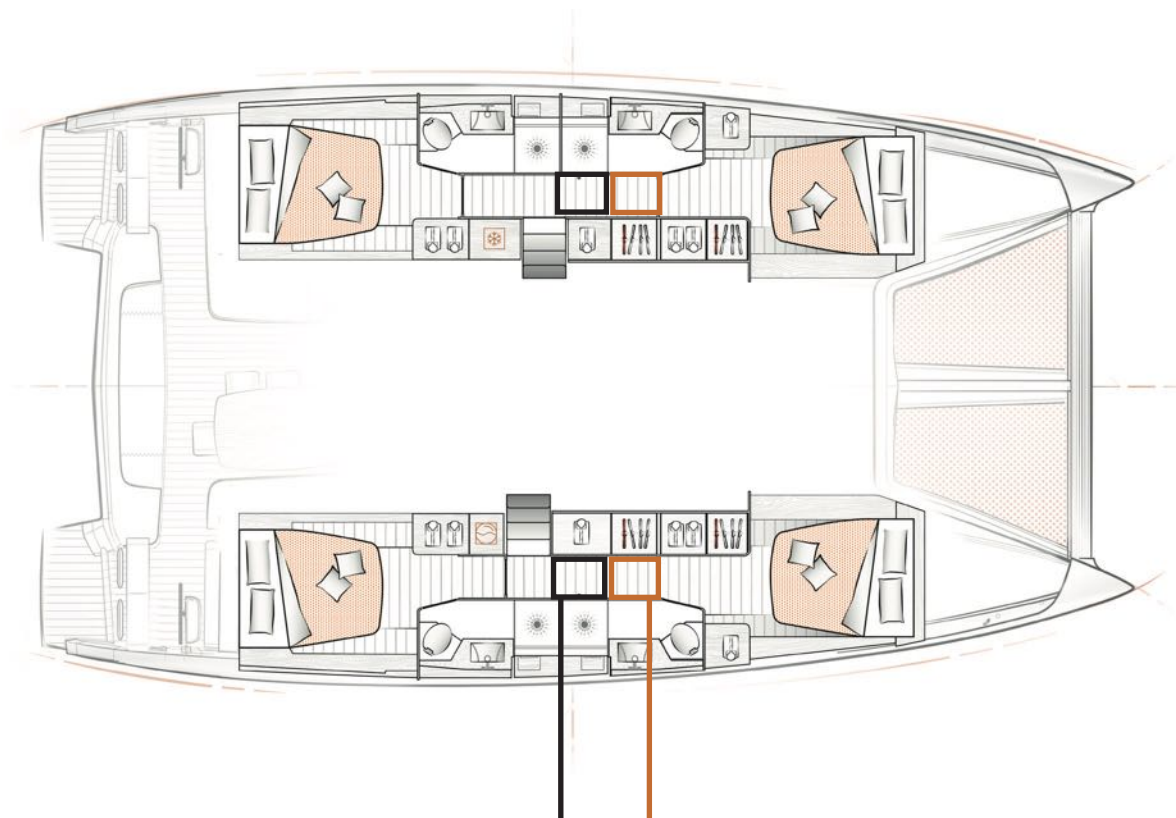

Tanks accessible through a removable hatch on the floor.

[Total capacity 3C [standard + option]: 360 L | 95 US gal

[Total capacity 4C [standard + option]: 480 L | 127 US gal

[Not compatible with additional grey water tanks option]

LOCATION ON BOARD

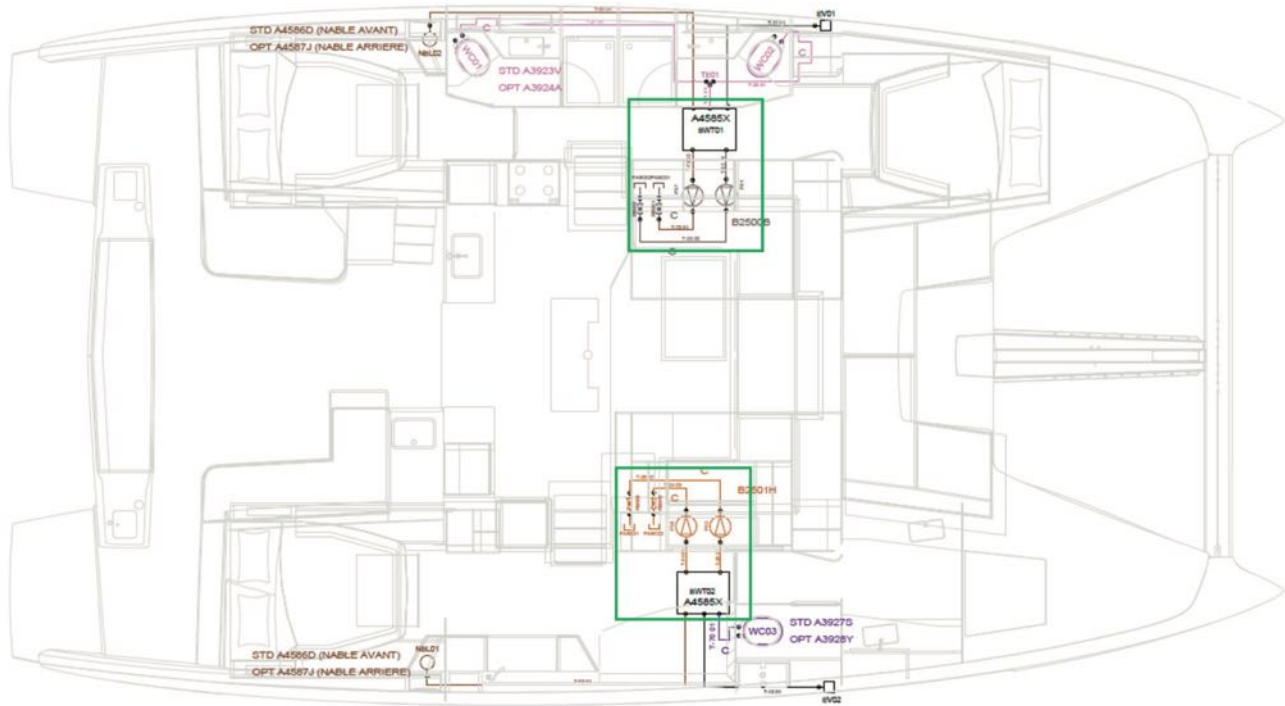

Standard: black water tank
2 x 120 L [2 x 32 US Gal]

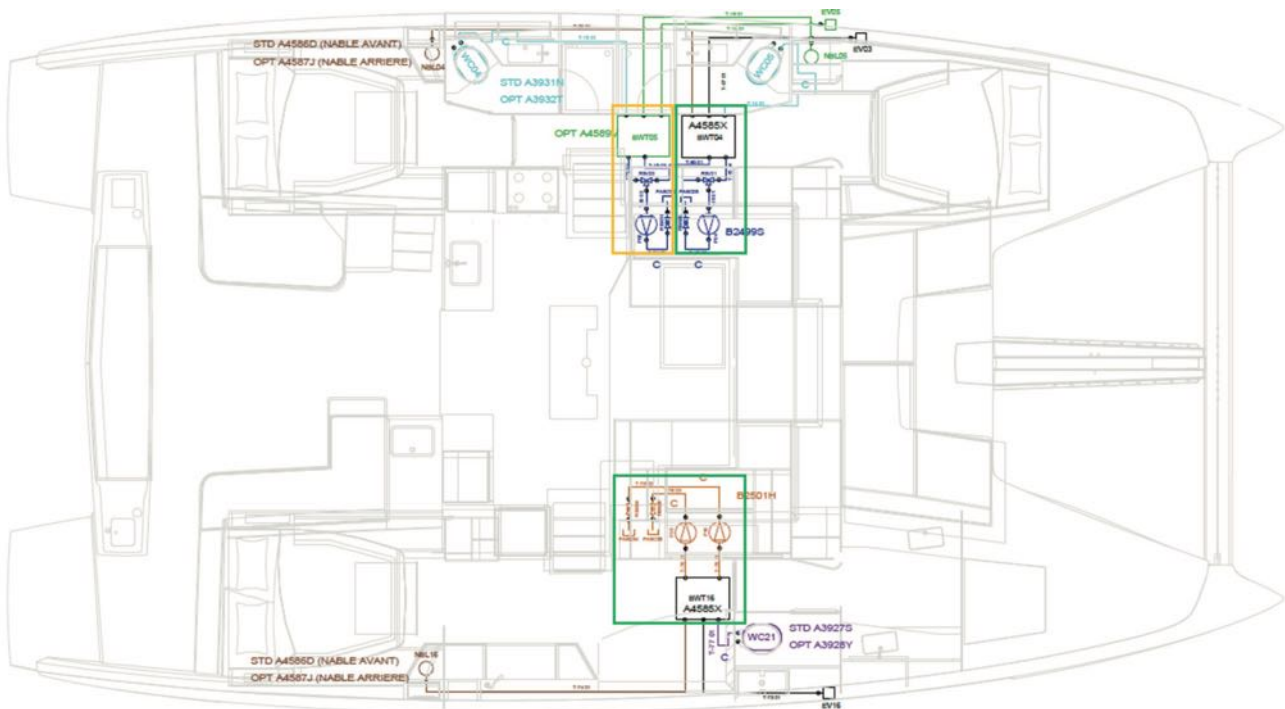

Option: Additional black water tanks
2 x 120 L [2 x 32 US Gal]
